All team members are required to present their Licence to the new VicRoads station, which will be part of the Scrutineering & Design and Construction process at Maryborough. If no licence is presented, any number of riders in your team will be required to demonstrate competence in vehicle control by undergoing a tough test. By signing the Licence, the Team Manager and Principal both certify that the student has completed the necessary track safety, vehicle maneuverability training and has read and is familiar with the Trial regulations. **Safety is the number one priority at the Energy Breakthrough.**
